FINGERPRINT-BASED BACKGROUND CHECKS

A modern fingerprinting workflow, *built into your Universal program.*

One branded weblink replaces the paper forms, the on-site payments, and the spreadsheets. Applicants open the link, pick from the 10 closest in-network locations, and you get audit-ready records back automatically.

The problem

Most orgs run fingerprinting on paper and patience.

- No formal process. Paper forms, manual tracking, no visibility.
- Applicants pay on-site; receipts may or may not make it back.
- Pricing and rules vary by location with no single source of truth.

The fix

One custom weblink, end to end.

- Branded link per organization. No install, no account creation.
- Direct billing to your org, or applicant-pays. Switch anytime.
- Real-time status, automated reports, audit-ready records.

The applicant journey

01

Open the link

No account to create. No password to remember. A one-time email code verifies identity.

→

02

Schedule

10 closest in-network locations, picked automatically. Choose date and time inline.

→

03

Arrive prepared

Printable request form with QR code, plus an itemized receipt with directions.

→

04

Done

Tech scans the QR, captures prints. Results route to you through the proper channel.

State-level coverage

CA | FL | UT | MS | NV

Plus nationwide FBI & FINRA channeling. State-level fingerprinting must be processed in the state you're registered in. These are ours.

What it costs

Base rate
Pre-negotiated with Universal

+

Gov't fee
Set by your ORI & purpose code

No cost to build or maintain the link. You only pay per fingerprint.

How to get started.

01

Share your state identifiers

Including your ORI. Don't have one yet? Your Universal rep can help you obtain it.

02

We build your branded link

Configured against your ORI and target purposes, with your organization's branding applied.

03

Ready in 1 to 2 weeks

Send the link to applicants directly, or embed it into the workflow Universal already manages for you.
